Lead Ornate Handle	00097-1	9-20-2013	25.5 Grams	Lead	Blue Water Rose

**Artifact Comments:** Artifact recovered from the Contadora section of the San Jose site. The lead artifact appears to be a handle of some sort. On the inside curve of the handle there is an extension that has a face. The face appears to be that of a stylized dolphin much like those found on the handles of bronze cannon of this period. There has been no other associated material found in the surrounding area. Similar handles can be seen in still life paintings from the
